Uranus and Jupiter rule strongly for good this day, according to astrology. Venus and Saturn are mildly adverse. It is a day most ausnicious for collecting money for philanthropic purposes.

Under this sway business affairs connected with church work should be most fortunate. There is a forecast of some extension of reform work along new lines.

The seers predict that politics and religion will become in some way intermised in the next year and that there may be unpleasant incidents growing out of this association.

was struck by lightning: We can't get out from downstairs!"

"Then jump out of the window from upstairs!" cried Uncle Wiggily. "You can fly down!"

"Oh, it's too far:" quacked Alice.

"And our wings are so wet from the rain that we can't fly well!" quacked Lulu.

"Ha! I have it' cried Uncle Wiggily.

"My big, stretchy raincoat! Come on, everybody!" he cried. "We'll hold out my raincoat under the window, like a net, and the ducks can jump into that:"
All who had come to the fire helped Uncle Wiggily hold his hig, rubbery, stretchy raincoat under the window, like a net, and down into this the ducks jumped and flittered. They were saved from the fire and werent hurt a bit, because they bounched up so nicely in Uncle Wiggily's rubber raincoat. And the rain put out the fire before it had burned the duck house all down. Part of it was saved.

Nashville for some days leading the fight against the passage of the Memphis city manager charter amendment evidently finds that he can not leave the political situation there to honor the 115th by his presence in Memphis, but from the state capital has issued the following proclamation:

the following proclamation:

To the Citizens of Memphis:

Tomorrow is Liberty day.

Two years ago Sunday word was flashed around the world that America was ready to offer her all in the great siruggle to preserve democracy. Americans throughout the land are now preparing to celebrate the second anniversary of our entry into the war.

This fact alone should call for the greatest celebration in history. However, by coincidence, that day also will mark the return of the 115th field artillery—a regiment composed almost entirely of Memphis boys.

We should give these returning heroes such a reception as would dwarf any demonstration ever held in this city. Private business should be suspended. Flags should be displayed on every business house and private dwelling. The streets should be decket with Old Glory.

Every man, woman and child in the city should take great pride in being abel to greet these heroes—men who faced cannon fire, charged machine gun nests and advanced in the face of polson gas atacks that sutocracy might be defeated.

We also should not torget to send up a prayer for those boys who now rest beneath the soil of France. Also for the mothers and wives, who were willing to make every sacrifice for heir country—brave little women who sent their loved ones away with a smile.

Let's give these boys such a weldome as to leave no doubt but that their work was appreciated by those who fate decreed should remain at home.

It grieves me deeply that I will not be with you to personally welcome these returning heroes, who were the first Tennessee boys to se actual service on the battle front. I know of nothing that would give me more pleasure than to shawe hands with each and everyone of them.

Did I not think that I could best serve noty your interests, but theirs, by remaining in Nashville, I would be present tomorrow, when these veterans begin their march down Main street. I feet that I am here toprevent such a government as brought on this armed strugge being adopted for your city.
